MT. STERLING, KENTUCKY, TUESDAY, MARCH 19, 1918.

NUMBER 38

#### FORMER LOCAL GIRL DIES AFTER LONG ILLNESS

The sad news of the death of Mrs. Phelps Renick, which occurred at her home in Winchester last Thursday was recevied here with profound grief.

Mrs. Renick had been in bad health for some time, and had undergone several serious operations. She had been subject to nervous attacks, and her aunt, Mrs. Eliza Ross, of Lexington, who is a trained nurse, had been constantly with her. Mrs. Renick's condition had ed to her home.

at the home of her sister, Mrs. George Stapleton. She soon rallied, all happened in less than thirty and grade for grade the market however, and returned to her home on Maple street.

taken a dose of formaldehyde. It time and they feel convinced that out before 11 o'clock. her untimely death was caused by her taking the wrong medicine.

ter of Mrs. Renick, was on her way \$4350; Lafe Resiner sold 13 about total of \$978,025.05, average of to the Renick home for a morning 900-pound steers to Henry Judy at \$26.66. It is thought that by the call on her sister, and arrived a few \$100 per head. They were good, closing sale there will have moments after her death.

and a daughter of Mr. and Mrs. pound calves at \$37.50 to George \$2,125,000. This amount sold does Bruce Duty, of this city, having Calvin, of West Virginia; Sam not include about 2,000,000 pounds been Miss Laura Bruce Duty before Keeton sold 32 about 600-pound which has been handled in the city her marriage. Besides her par-steers to W. W. Wilson, of Shelby through purchase made by repreents and her sister, she is survived county, at \$60. Mr. Wilson refus- sentatives of one of the Big Four by two brothers, John and Dyke ed an offer of \$65 for them in less before the season started, and Duty. She was known for her ex- than an hour; Coon Allen sold 10 which amount has not gone over the quisite type of beauty, and for her about 450-pound heifers at \$45 and floors, but has been prized at the sweet and lovely disposition. The 10 about 400-pound steers at \$50; Robertson house and shipped to devotion of the two sisters was a Geo. Halsey sold 25 about 550-pound Louisville and other points. Relick was also the idol of her head; Mike Wilson sold 18 about father and mother, her young 300-pound heifers to C. S. McDonwas tenderly loved by everybody, party sold a bunch of 1000-pound sweet.

the burial took place in that city. 

### CLOSING EXERCISES OF

at 8:30 p. m. A delightful program yoke of about 1800-pound steers at duty demands and we feel sure that has been arranged by the Principal, \$175; Jas. F. Nichols sold 6 600- all of our citizens feel justly proud Mrs. Cathryn Gatewood, including pound steers at 60 and 25 500- of the step this patriotic young forward to by the colored folks of 20 about 400-pound steers of Jas. our city. The public in general is Nichols at \$45. cordially invited to attend these

> When the food administration goes after the CONSUMER and compels him to obey the latter and spirit of the law-whih must come if we are to succeed in the task we have set ourselves-this particular breed of hog is going to have hard sledding. Speed that day.

A movement of 95,000 drafted men to begin on March 29th and continue for five days was ordered Tuesday by Provost Marshal General Crowder. The order calls troops from every State in the Union with the exception of Iowa remaining from the first draft and those liable to call in the second. Just how many men of the second draft are affected by the order was not stated at Gen. Crowder's office. It is understood that the movement will virtually complete the first draft and that it is part of the announced plan to call registrants in small groups as fast as they can be accommodated. The apportionment of Kentucky is 1,651.

SELLS HOLT AVENUE HOME

Dr. J. F. Shultz, of this city, sold cant lot adjoining on Holt avenue, and will give possession in ten days or sooner. The price paid was \$3,000 cash. Dr. Shultz bought the property several months ago and cleaned up about \$500 on the investment. Dr. Shultz will remain in this city, but will purchase a larger and more desirable place.

## Swift & Company **Publicity**

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Sales \$875,000,000. **Profits** \$34,650,000.

This is equivalent to a \$3,465. profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per

ONE DOLLAR AND FIFTY CENTS PER YEAR Cash must accompany order. No announcement inserted until paid for

THE BOY'S OPPORTUNITY

The Government is preparing to give to every boy big enough to take a man's place, an opportunity to render a real service to his country this year by engaging in some helpful occupation, preferably farming. Labor is very scarce and every reader who has a boy should appeal to his patriotism to induce him to respond to his country's call. It will help him personally and be of incalculable benefit in increasing the food supply. Hindenburg's much advertised spring drive will not compare with the spring drive of the American farmer, if this movement is a success and remember food will win the war. Every boy who does "do his bit" in this way, will be given a service medal by the Government, which in after years he will prize very highly. Don't let your boy be a slacker. See that he puts his name on the roll of honor at once.

Several hundred horses belonging to the Government died last week in Covington and are believed to have been poisoned and until we take a few traitors out and shoot them for such acts, we may expect these sort of things to continue.

If it is a good thing to have a dry zone around every army camp for the protection of our soldiers, why not apply the same rule to every American home?

### DOCTOR GIVES MAN VIN HEPATICA AS LAST RESORT

Mule Had Run Away With Lawrence County Farmer-Complications Arose That Baffled All Remedies Till Doctor Gave Vin Hepatica

W. W. Kelley, aged 58, well-known farmer, of Route No. 3, Leona, Tenn., and former merchant, who was so badly hurt several years ago by a mule running away with him, and for a long while in such a serious condition as a

result of his injuries, has recovered and is at his work again.

Mr. Kelley says: "If anybody ever was in a terrible condition, I was, until my doctor discovered the right medicine for me. I had to quit farming and cine for me. I had to quit farming and go into the merchandising business, but my injuries were such that I broke down in my kidneys and suffered greatly from rheumatism. I got so run down that I could not sleep. Had to get up a dozen times a night on account of my kidneys. I tried all sorts of tonics and remedies without any help at all. Had to quit business.

"One day my doctor gave me a sam-ple bottle of Vin Hepatica and told me to try that. And I did. It relieved me so much that I had my wife to take some of it, too, and I can safely say that anybody who is in a rundown condition can not miss it if they take Vin Hepatica. It is certainly a wonderful medicine, just as my doctor said it

This is just the way thousands and thousands talk about Vin Hepatica, because it is Nature's own remedy for kidney, liver, stomach and bowel troubles; rheumatism, impure blood, nervousness, sleeplessness, rundown, weak condition, etc. It is not a patent nos-trum, nor a king cure-all, but a com-bination of eight of the finest herbal emedies known to medical science. We strongly recommend this great Nature remedy. Come and get a bottle

W. S. Lloyd, Mt. Sterling, Ky.

### ANNOUNCEMENT OF

SECOND DRAFT

Provost Marshal Crowder Tuesday made the first official announcement of the time of the second draft. It will be ordered as soon as Congress amends the law to compute the basis of apportionment among the States on the number of registrants in Class 1, instead of population. For purposes of computation 800,000 men will be considered as composing the second draft, although no such number will be called to the colors at any one

# TIRED, NERVOUS HOUSEWIFE

Now She is Strong and Well

Berkeley, Cal.—"I was nervous, irritable, no appetite, could not sleep, and was always tired, so my housework was a great effort. After many other medicines had failed Vinol built me up and made me strong. I have a good appetite and sleep well. Every nervous, weak, ailing woman should try it."—Mrs. N. Edmunds, 2107 Dwight Way, Berkeley, Cal.

We ask every nervous, weak, run-down, alling woman in this town to try this cod liver and iron tonic on our guarantee to return their money if it fails to help them. W. S. Lloyd, Druggist, Mt. Sterling, Ky.

IN SCHOOL

With the many pressing matters claiming the attention of the people and the urgent need of every hand at the plow that can possibly be mustered, the temptation is great to slack up on school attendance. This temptation should be resisted. No child of school age should be permitted to absent himself or herself from the schoolroom. The urge of education was never greater than at present. The absolute inability of the uneducated to meet present day conditions was never more apparent. And not only is this true, but the education must be more thorough now than was ever before demanded.

The probable duration of the is a matter of much uncertain-A slackening of the educational drive would be most unfair to the young people and would place them at a terrible disadvantage; would impose upon them a handicap from which many of them would never

If we would have an object lesson of the effects of abandoning the education of the young people during the war times, we have only look to the Southern States of this Republic. During the unfortunate war between the States, when the people of the South were fightfor their very life, education was permitted to languish. The present free school system was then unknown, all schools being of the "subscription" class. These were and try it, on our recommendation. You will like it and it will do you good. largely abandoned, and the young people permitted to grow up practically without education. The result is still to be seen in many sections of the State. Men who were in their 'teens when the war broke out, just at the age when they should have been applying themselves diligently to securnig an education, were drafted for work on he farms, and from there graduated to the ranks, with the result that they have gone through life without the education that by rights should have been theirs. There are thousands of these men throughout the South today-men of great natural talents who, had they gotten the training they should have had, would now be occupying high position. But their illiteracy has been fatal to any real progress. They are honest, painstaking workers in whatever field they may occupy, but their handicap places them in the ranks of the mediocre, and struggle as they may they can never go

> As illustrative of the point we wish to impress, let us state that of the entire country the South is today more than any other section pre-eminently a young man's coun-It is so from the fact that such a large per cent. of the older people are so deficient in education.

The boy or girl can find time to do all the work in other lines that should be imposed upon them and still keep up their studies. A few hours each day given to real work will only nerve them the better for their studies. And a few hours of out the hogs at Hog Island, it might work each day is all that should be required of them under an circum-

TEST SEED CORN

RKKYKKKKKKYY YKYXYXX The seriousness of the food sitnation and the necessity of maximum yields on the farm lands of mum yields on the farm lands of the country during the coming year has lead the U.S. Department of Agriculture and the State Experiment Station to send Prof. H. H. Broch, of Madison county, here to remain until after the corn crop has remain until after the corn crop has been planted. Prof. Broch will probably remain in this city for six weeks, making his headquarters at the office of the County School Superintendent and going over the county giving personal advice, making tests and lecturing to the farmers in the schoolhouses and other gathering places. Any advice or service rendered by Prof. Broch is absolutely free, his expenses being borne by the Government which realizes the vitalness of making every acre of ground produce fully and without the loss which is sure to result from the planting of poor or damaged seed. Just at present the seed corn situation is the most serious to be faced and in a conversation with Prof. Broch we learned that any farmer makes the greatest financial as well as patriotic mistake if he plants a single acre of corn without first having his seed thoroughly tested to find out the percentage of germination. Prof. Broch says that many farmers depend on looks or sometimes the taste of seed corn to tell whether it will grow or not. He says that such tests are absolutely unreliable and that the only sure tests are those scientifically recognized as efficient. In Bourbon county, Prof. Broch says that tests have shown only 19 per cent. germination in spite of the fact that outwardly the corn looked good. In Madison county the tests have shown a germination of only 20 to 40 per cent. and in other counties the tests have run as low as 10 to 20 per cent. This means that out of every 100 hills of corn planted, only 10 to 20 hills will produce corn.

Prof. Broch is at present making tests of Montgomery seed corn but the result has not yet been ascertained. Displays will be arranged at each of the banks showing good ears of seed corn and bad ears with figures to show the difference in yield which would result from the planting of each and the difference in money value per acre of land planted from the two ears of corn. Everything possible will be done to bring home to the farmers the necessity for testing their corn. Prof. Broch asks that all farmers bring him samples of their seed corn which he will test without cost. He will further show them how to make their own tests at slight expense and with but little trouble. Many farmers, he understands, are ordering Southern Seed Corn because they can get it a little cheaper and he absolutely warns against this, saying that Southern corn matures more slowly than Northern or Western corn and is unsuited to climatie conditions of this section. Those seeking his advice will be told where they may secure government tested seed corn suitable for planting in this section and at a price much below that being asked by the average grain and seed dealers. A mass meeting was held at the

#### WILSON CALLS ON BOYS TO ENLIST IN RESERVE

Washington, March 14.-President Wilson today called on all American boys of 16 years and above not employed permanently to enroll in the United States Boys' Working Reserve. A national enrollment week, beginning March 18, has been set aside by the Department of Labor.

The President's open letter, made public today, follows:

"The Department of Labor has set aside the week beginning March 18 as National Enrollment Week for the United States Boys' Working Reserve. The purpose of this National Enrollment Week is to call the attention of the young men of the nation to the importance of increasing the food supply by working on the farms and to urge them to enroll in the reserve.

"I sincerely hope that young men of the country, of 16 years of age and over, not now permanently employed, and especially the boys in our high schools, will enter heartily into this work and join the Boys' Working Reserve in order that they may have the privilege, for such I believe it to be, of spending their spare time in a productive enterprise, which will certainly aid the nation to win the war by increasing the means of providing for the forces at the front and for the maintenance of those whose services are so much needed at

"Woodrow Wilson."

### The United States Boy's Working Reserve

Uncle Sam has gone to war in self defense. With his ships ordered from the free seas, his vessels destroyed, and his people wantonly murdered, he was compelled either to submit or fight. He has sprung to the side of his allies to take up the gauge of battle. If Germany wins, eventually she will impose her will on the civilized world, and the principles for which our forefathers foughtand bled will perish from the face of the earth.

For thirty years Germany has been organizing every resource, human as well as material, for war. Her men, women and youths have all been trained, her factories, her mines, her harbors, her railroads, have all been planned so as to make effective all her power in the conflict that was intended to make her dictator of the world.

Uncle Sam has assumed a sacred trust. The entire civilzed world looks to him not to fail in defending the principles with which to insure the happiness of mankind for centuries to come.

Labor must be drawn from sources that have never been utilized before. Uncle Sam takes inventory and finds that the most promising supply from which to draw is from the five million young men of the nation between the ages of sixteen and twenty-one. About two million of these are either idle or are engaged in non-productive activities for a substantial part of the year. Uncle Sam, after considering how he could make most readily available this source, brought into being the U. S. Boys' Working Reserve.

### To the Employers

The Reserve has proved conclusively that, even though inexperienced, the strong, healthy boy, inspired by patriotism, is a capable and adaptable helper in field and factory. Every employer should remember, however, the limitations of youth, and no employer should work members of the Reserve long hours. The Reserve has been firm in upholding child labor laws and in contending for reasonable hours of toil. The Reserve recommends supervision of boy laborers and frequent inspection of working conditions. The boy of today is the man of tomorrow, and the future of the nation depends upon the moral and physical welfare of its boys.

### What the Reserve Is

The U. S. Boys' Working Reserve is a registered army of patriotic youths between the ages of sixteen and twenty-one, organized under the U. S. Department of Labor to help the nation where most needed to win the war in field and factory. Every boy physically fit, of proper age, is eligible for this non-military civilian army. To enroll the young man fills out an enrollment card, obtains the consent of his parent, takes the Oath of Service and receives a certificacate bearing the Great Seal of the United States and an Enrollment Badge. He can serve his country in three separate units of the Reserve. If he goes into the AGRICULTURAL UNIT, he will probably work on a farm from a camp, or live in the farmer's family, and after six weeks of satisfactory service he will receive a Federal Badge bearing the Great Seal of the United States. If he works in an industry which is essential in helping to win the war, he enters the INDUSTRIAL UNIT, and gains the Federal bronze badge when he has served ten weeks subsequent to enrollment. The Reserve recommends that all boys who are at school remain there and use their spare time in preparing themselves vocationally for some essential occupation. The boy who thus trains himself and goes into active service in a war-essential occupation as a member of the VOCATIONAL UNIT, is awarded the Federal Bronze Badge on taking employment.

### To the Parents

Fathers and mothers of the nation should see to it that their sons are members of the Reserve. The Reserve is entirely voluntary and a boy may be withdrawn from membership in the discretion of the parent. If a boy is in school, he will not be taken from his studies, but will be encouraged to utilize his vacation and spare time in training for productive activities.

### H. G. HOFFMAN

Federal County Director Montgomery County Mt. Sterling, Ky

### A Trumpet Call

BY GEORGE ADE

This is to the fortunate ones who, ten years from now, will be enjoying the benefits of what all future histories will call the GREAT WAR.

You boys who are getting ready to vote will know more about this war when you are plump and middle-aged than any one can possibly know

When the dust has cleared away and the large events of the war can be seen from a distance, then you will understand that the United States had to take part, that the task we are now undertaking had to be accomplished.

Let us hope that each of you can say, twenty years from now, "I was young at the time, but I knew what the war meant, and I helped."

Not all of the heroes are in the trenches. Perhaps you have heard about the Working

It has been carefully organized under government supervision. It has received the official endorsement of the President. The whole plan is working out successfully wherever it is understood.

The trouble is that some of the boys and some of the parents are still a little doubtful regarding enlistment, because they don't know how much of an obligation is assumed.

Here is the plan in a nut shell: Thousands of enlisted and selected men have gone to the training camps. It may be that thousands more will go next year. These men are being called from factories and work-shops and farms. Every factory and every farm must continue production if we are to render full service to our faithful allies during the war. How can we fill the places of the young men who have gone away to fight? We must rely upon the boys who are old enough and husky enough to work, but who are still too young for military service.

So here is a trumpet call for all city boys and town boys between the ages of 16 and 21.

Prove your patriotism and help your country by jumping in and doing the work of a soldier who has gone to the front.

Miss Adele Diffenderfer

Secretary

Mt. Sterling, Ky.

PHILO C. DIX, State Director C. A. TEVEBAUGH, Asst. State Director Louisville, Ky.

GOOD PROFIT IN

SMALL GARDENS A half-acre garden, if cared for

properly, will produce far more vegetables than the average family can consume during the maturing period of the crops.

Only a small portion of a garden of this size should be devoted to those vegetables that must be used as soon as they reach maturity. It is advisable to devote the major portion of the space to those crops which if not needed at once may be kept for winter use. In fact, if the space is available the garden should be planned with the definite purpose of growing crops for storag for winter use.

Late beets, late cobbage, carrots, celery, onions, parsnips, late potatoes, sweet potatoes, salsify and late turnips may be stored in their natural condition, and if possible should be grown to the extent of the family needs for storage for winter

It is possible in nearly all sections of the country to grow late beets, late cabbage, late potatoes and turnps on ground that has already produced a crop of lettuce, radshes, beans, early peas, early potatoes, or some crop requiring a relatively short period for its ma-

Gardeners are inclined to neglect the opportunities for crop production in the garden after the first part of the season has passed and frequently space is allowed to lie idle that should be producing a crop of late potatoes, cabbage or turnips.

In sections where the season is short it is possible to plant the late crops between the rows of early crops are removed, thus gaining two or three weeks time.

Late potatoes may be planted on ground from which early peas or string beans have been removed.

Late cabbage may be planted between the rows of early potatoes before this crop is mature. Turnips may be sown between the rows of late corn and late bush beans. Late beets may be planted between the rows of late beans and will grow long after frost has killed the beans.

By utilizing every square foot of space in the garden a considerable quantty of vegetables may be grown for storage for winter use. If no all the crops suitable for keeping

to provide storage facilities in most and other pole beans may be planthomes, it being only necessary to ed around the fence, it being posmake use of the cellar, the attic, a sible in this way to produce considlarge closet or other parts of the erable quantities of dried beans for

the first and last object of careful buyers. Both quality and satisfaction are guaranteed by a business which has gained world leadership because of its ability to manufacture and distribute the highest quality products at fair prices.

## Certain-teed

Certain-teed is a conservation product. It is made from rags and asphalt, skillfully converted into roofing that is impervious to the elements. Certain-teed is the most efficient type of roof for all kinds of buildings, from the modern skyscraper to the farm barn. It is light weight, weatherproof, clean, sanitary, fire-retardant. Certain-teed is not affected by fumes or gases, and cannnot rust or corrode. Its first cost is moderate, laying cost low, and upkeep practically nothing. Certain-teed is guaranteed 5, 10 or 15 years, according to thickness.

## Certain-teed

Made from the best quality materials, mixed by modern machinery in scientifically correct proportions to produce the highest quality paint. Certain-teed Paints and Varnishes are sold at cost plus a small profit. Each color is priced according to its cost. Paint makers usually charge the same for all colors, basing their prices on the cost of making the expensive colors. The Certain-teed policy puts each color on the right basis. Therefore most Certain-teed Paints cost you less than competing paints of anything like the same high quality.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

### MUSIC DEPARTMENT MEETS

On Monday, March 18th, at 3 o'clock, a students' program was given by the Music Department of the Woman's History Club. The program was exceptionally good, showing talent and application on the part of the students and reflecting much credit on their teachers. Piano numbers were rendered by Misses Kelley Barnes, Mary Frances Schaffer, Christine Ramen, Marion Young, Miss Henry and a beatuiful duet by Miss Graves and Miss Crail. Two lovely vocal numbers by Miss Martha Mae Robinson closed the program.

A goodly number of Mt. Sterling's music lovers came out to hear this excellent program by our young musicians and to encourage them in the work they are doing.
